

**HERE GOES THE TITLE OF THE PAPER.
ONE CAN USE LINE BREAKS TO GET
A MORE NATURAL LOOK OF THE TITLE**

FIRST AUTHOR NAME AND SECOND AUTHOR NAME

Abstract. The abstract is obligatory. Please do not use author defined macros in the abstract and if possible, avoid references to anything in the paper.

1. INTRODUCTION

Here insert your text.

2. TITLE 1

Here insert your text.

Proclams (theorems, propositions,...) should be inserted as follows:

Theorem 1. *Text of the theorem.*

Proof. Text of the proof. Displayed equations should be typeset using `equation` environment if numbered:

$$\zeta_k(x) \equiv Li_k(x) \equiv \sum_{r=1}^{\infty} \frac{x^r}{r^k} \quad (k \geq 0) \quad (2.1)$$

```
\begin{equation}
\zeta_k(x) \equiv Li_k(x) \equiv \sum_{r=1}^{\infty} \frac{x^r}{r^k} \quad (k \geq 0)
\end{equation}
```

Non-numbered displayed equations can be typeset using

$$e^{i\pi} = -1$$

In such a starred version the equation will not be enumerated.

2010 *Mathematics Subject Classification.* Primary: Obligatory! Secondary: Optional.
Key words and phrases. keywords should be put here.

The symbol for the end of proof will appear automatically.

Equations should be displayed *only* if they must be enumerated for future reference or if they are to long or complicated. Please *do not* enumerate displayed equations that are not referred to. \square

3. TITLE 2

Here goes the text under this section.

For the images, please provide eps format.

Here goes acknowledgements, research support, grants, etc.
